Dr. Divya Sadaram offers services as a professional light worker and holistic healer. As a medical doctor, understanding the physiology, anatomy and biochemistry of the human body along with its correlation to the pathological aspects to healing an ailment or cure at a physical level were very rewarding for her. Yet, witnessing the lack of cure for most of the chronic and malignant illnesses, she realized that the healing paradigm is more profound.

In her journey, Dr. Divya had several visions with guidance from spiritual gurus, angels, ascended masters and deep meditative kundalini experiences where awareness and revelations came of the broader aspects and approaches in the healing paradigm to heal at physical, mental, emotional and spiritual levels. As she allowed this Divine intervention, she was amazed to see instant healings, transformations, and manifestations for her own family members and friends. Building on this, she learned various transformative modalities to expand her consciousness. She teaches some of these methods.

Now, you too can learn different methods, learn to connect with the creative energy that is present in all things and how to develop the innate ability to change on all levels: physically, mentally, emotionally and spiritually. Then we will create the vortex while holding hands sitting in a circle; send it down to mother earth to thank her for all she provides for us; around the whole planet to all living things; bring it back into the circle again to send healing energy out to our friends and loved ones. Finally, we will bring this healing vortex energy back into ourselves, for our own personal healing. Join us and find how much better you can feel!

C. Secrets of the World's Oldest Temple: Gobekli Tepe, 12,000 BC - Zeynep Yilmaz. www.reikinewsletter.blogspot.com (Room 107-108)

Gobekli Tepe, an archeological site in South East Turkey that dates back to 10,000 BC, (7,000 years older than Stonehenge), has significance as being the first temple built by humans. Gobekli Tepe has changed the history of human civilization as we know it. It had been believed that the hunter-gatherers didn't have a belief system and that worship started only after humans discovered agriculture. Discovery of Gobekli Tepe has changed this view and proved that there was faith first and it probably led to the discovery of agriculture.

There are so many unknowns about the site:

- Who were these early humans?
- How did they erect 30 ton, 18 foot pillars?
- What's the symbology behind the animal figures and carvings? How does this compare to other known civilizations?
- Why did they bury the site deliberately after using it for 1500 years and disappear?

Zeynep has been to the site recently and would like to share what she learned and challenge us all to reconsider what we know about early humans, by recognizing how connected they were to nature and how they had a consciousness higher than we can imagine.

For more information, please do a search for Gobekli Tepe. In the meantime, here are a couple links about Gobekli Tepe: <https://www.youtube.com/watch?v=A3aBN2QGn6w> , <https://www.theguardian.com/science/2008/apr/23/archaeology.turkey>

This message galvanized her soul and determined the course of her life. In search of the liberating truth, she was led to live in India and Nepal, and in monasteries in Europe, and then guided to embrace Islam at the hands of an ancient Sufi Master a few minutes away from the tomb of the Prophet Abraham.

She has described the deep journey of transformation in a book entitled: "Journey Through Ten Thousand Veils, the Alchemy of Transformation on the Sufi Path." This book is a significant and revealing spiritual and social commentary dispelling many myths and stereotypes, such as the proposition, often fostered by the media, that women are inevitably oppressed in Islam. On the contrary, it is by entering into the heart of Islam that the author was liberated, elevated, empowered, and guided to realize the true purpose of her existence.

D. The Ability Rainbow - Sherrie L Milot & Dimitri Kaplanis. Colors in the energy field reveal one's talents and gifts. angelsspiritmedium@gmail.com

Everyone has special intuitive gifts from birth - a strong intuition, psychic abilities, connections to the Fairie and Angel realms. Peoples' abilities appear in the ability colors around them. The ability colors are sometimes mistaken as a person's aura colors. They are not the same. This seminar will show how to tell the differences. Sherrie will read volunteers from the audience to help them better understand who they are as well as their gifts.

Dimitri Kaplanis is a Spiritual Advisor and Psychic Medium, Instructor of Spiritual and Paranormal Studies, and a Psychic Artist.
